dimagi

Modern Digital Solutions for Public Health and Human Services

We help state and local agencies improve care coordination, treatment access, and program outcomes.

10+
States supported

32,000+
Treatment admissions managed

10,000+
Users on statewide systems

Dimagi partners with state and local agencies through two complementary solutions. **CommCare** enables secure case management and frontline service delivery, while the **Dimagi Data Platform** turns operational data into reporting and insight, together supporting the programs that matter most.

SOLUTIONS

Built for the Programs That Matter Most

Behavioral Health

Treatment registries, provider directories, referral systems, bed availability and service capacity tracking.

Maternal & Child Health

Screening, case management, care coordination, and referral solutions for mothers, children, and families.

Public Health Response

Disease investigation, community outreach, service navigation, and longitudinal care coordination across programs.

Data & Reporting

Data infrastructure underlying every solution powers program monitoring, performance management, and state and federal reporting.

PARTNERING WITH PUBLIC AGENCIES NATIONWIDE

Colorado Behavioral Health Administration
Vermont
New York State Department of Health
NJHealth New Jersey Department of Health
Indiana Department of Health
Pima County Health Department
San Francisco Public Health
